Check that there are no wires, tree branches, fences or other possible hazards above and around the trampoline. The trampoline should not be placed near any pools, swings, slides, climbing frames or other obstructive installations. The trampoline is not intended to be buried into the ground.

Weather conditions

The trampoline should not be used when wet. In winter conditions, please disassemble the trampoline and store all fabric parts (mat, foam pad, safety net) inside. In strong wind conditions, disassemble the foam pad and safety net and secure the trampoline to the ground using Ground Stakes/Anchors (sold separately).

How to use

Take it easy at first. Don't try difficult moves.

Never step on the frame pad. It is not constructed to support the weight of a person. Never dismount by jumping off the trampoline. Always climb off. Don't use the trampoline under the influence of drugs or alcohol.

Always have someone else watching while you jump. If you should injure yourself you will have someone to assist you.

Always start your jump at the centre of the mat. If you land more than 30 cm away from the edge of the logo, stop your jump immediately!

Restart your jump at the centre of the mat.

If proper care and maintenance is provided, it will provide all jumpers with years of exercise, fun, and enjoyment as well as reduce the risk of injury. Please follow the guidelines listed below. Installments of additional accessories must be carried out as per manufacturer's instructions.

This trampoline is designed to withstand a certain amount of weight and use. Please make sure that only one person at any one time uses the trampoline. Jumpers should either wear socks, gymnastics shoes, or be barefoot when using the trampoline. Please be aware that street shoes or tennis shoes should NOT be worn while using the trampoline. Regularly check that nuts and bolts are securely tightened, since they may come loose over time. Check that all spring-loaded (pit pin) joints are still intact and cannot become dislodged during play; Check all coverings and sharp edges and replace when required Check that mat, padding and enclosure are free from defects.

Always inspect the trampoline before each use for worn, abused or missing parts. A number of conditions could arise that may increase your chances of getting injured. Please be aware of:

- Punctures, holes, or tears in the trampoline mat
- Sagging trampoline mat
- Loose stitching or any kind of deterioration of the mat

IF YOU FIND ANY OF THE PREVIOUS CONDITIONS, OR ANYTHING ELSE THAT YOU FEEL COULD CAUSE HARM TO ANY USER, THE TRAMPOLINE SHOULD BE DISASSEMBLED OR SECURED FROM USE UNTIL THE CONDITION (S) HAS BEEN RESOLVED.

Do not modify the trampoline or any of its parts

The net should for safety's sake be replaced every year.

MOVING THE TRAMPOLINE

If you need to move the trampoline, two people should be used. All connector points should be wrapped and secured with weather resistant tape, such as duct tape. This will keep the frame intact during the move and prevent the connector points from dislocating and separating. When moving, lift the trampoline slightly off the ground and keep it horizontal to the ground. For any type of other move, you should disassemble the trampoline.

Placering af trampolinen

Placer aldrig trampolinen på et cementgulv eller andre hårde flader. Den bedste placering er på en jævn og stabil overflade som for eksempel en græsplæne. Der skal være et frit område på mindst to meter omkring trampolinen. Sørg for, at der ikke er nogen ledninger, grene, hegn eller andre mulige farer over og rundt om trampolinen. Trampolinen må ikke placeres tæt på pools, gynger, rutsjebaner, klatrestativer eller andre installationer, der udgør en risiko. Denne trampolin er ikke beregnet til nedgravning.

Vejrforhold

Trampolinen må ikke bruges, når den er våd. Skil trampolinen ad om vinteren, og opbevar alle stofdele (dug, skumkanter og sikkerhedsnet) indendørs. Fjern skumkanter og sikkerhedsnet ved stærk blæst, og fastgør trampolinen til jorden med plækker/jordspyd (sælges separat).

Vejledning

Start langsomt. Forsøg ikke at lave svære øvelser.

Hop ikke i trampolinen, når du er trætet. Det øger risikoen for skader. Sørg for at bære passende fodtøj, f.eks. gymnastiksko, eller hop med bare fødder.

Træd aldrig på sikkerhedsbetrækket. Det er ikke konstrueret til at kunne bære en persons vægt.

Når du skal ned fra trampolinen, må du aldrig hoppe. Kravl altid af. Hop aldrig i trampolinen, hvis du har indtaget stoffer eller alkohol.

Der skal altid være andre til stede, når du hopper i trampolinen. Så er der nogen til at hjælpe dig, hvis du skulle komme til skade.

Begynd altid med at hoppe midt i cirklen. Hvis du lander mere end 30 cm fra kanten af logoet, skal du omgående holde op med at hoppe!

Begynd at hoppe på midten af dugen igen.

BEMÆRK

SØRG FOR, AT ALLE SPÆNDER OG LYNLÅSE ER LUKKET KORREKT, NÅR TRAMPOLINEN BRUGES.

PLEJE OG VEDLIGEHOLDELSE

Trampolinen er designet og fremstillet af kvalitetsmaterialer og udsøgt håndværk. Ved korrekt vedligeholdelse vil den give brugerne mange års træning, sjov og glæde, samtidig med at risikoen for skader vil være mindre. Følg vejledningen nedenfor. Montering af yderligere tilbehør bør ske i henhold til leverandørens vejledning.

Trampolinen er designet til at kunne tåle en bestemt vægt og belastning. Sørg for, at kun én person bruger trampolinen ad gangen. Brugere bør enten bruge strømper, gymnastiksko eller hoppe i bare fødder, når de bruger trampolinen. Udendørssko eller sportssko bør IKKE bæres, når trampolinen bruges. For at undgå beskadigelse eller huller i trampolindugen bør kæledyr ikke træde på dugen. Brugere skal også fjerne skarpe genstande, som de måtte have på sig, før de bruger trampolinen. Der bør ikke medtages nogen former for skarpe eller spidse genstande, når trampolinen bruges. Tjek med jævne mellemrum, at skruer, møtrikker og bolte er strammet godt, da de vil løsne sig under brug. Sørg for, at alle fjederbelastede samlinger (fjederpinde) er intakte og ikke kan løsne sig under brug. Tjek alle beskyttelsesdele for skarpe kanter, og erstæt dem, hvis det er nødvendigt. Sørg for, at dug, skumkanter og tilbehør ikke er defekte.

Undersøg altid trampolinen for slitage, forkert brug eller manglende dele før brug. Der kan opstå en række situationer, der kan øge din risiko for at komme til skade. Vær opmærksom på:

- revner eller huller i trampolindugen
- sunket trampolindug
- løse sting eller andre former for ødelæggelse af dugen
- bukkede eller knækkede rammedele, f.eks. på trampolinens ben
- ødelagte, manglende eller beskadigede fjedre
- ødelagte, manglende eller forkert monteret sikkerhedsbetræk
- fremspring af enhver art (især skarpe) på rammen, fjedre eller dugen

Bemærk. Sol, regn, sne og ekstreme temperaturer nedsætter delenes holdbarhed.

HVIS DU MENER, AT DISSE FORHOLD ELLER ANDET KUNNE FORÅRSAGE PERSONSKADE FOR BRUGERNE, BØR TRAMPOLINEN SKILLES AD ELLER SIKRES MOD BRUG, INDTIL FEJLEN(E) ER BLEVET UDBEDRET.

Foretag ikke ændringer af trampolinen eller nogen af delene

Af sikkerhedshensyn bør sikkerhedsnettet udskiftes hvert år

FLYTNING AF TRAMPOLINEN

Det kræver to personer at flytte trampolinen. Alle fæstningspunkter bør være sikret med vejrbestandig tape, såsom klæbetape. Dette vil holde rammen intakt, når den flyttes, og forhindre, at fastgørelsespunkterne ikke flytter sig eller går løs. Løft trampolinen lidt fra jorden for at flytte den, og hold den vandret med jorden. Trampolinen bør skilles ad ved al anden form for flytning.
