GLØ-I-MØRKE STYKKER

Følg byggevejledningerne for at tilføje ringene til dit spor. For at tilføje skiltene til din bane skal du installere skiltholderne på stolpehæfterne, ringene eller stik og derefter skubbe skiltene ind i skiltholderne. For den klareste glød skal du lade din bane stå i et stærkt oplyst område i et par timer. Hvis du gør rummet så mørkt som du kan og lader dine øjne justere, vil skæret virke lysere.

SPIL

Ræs med dine kugler i 3 unikke begivenheder! Skriv vinderne ned på de medfølgende kort.

MESTERSKABET

Kamp om mesterskabet!

1. Skriv kuglernes farver i de tomme felter til runde 1 på mesterskabskortet.
2. I ræs 2 konkurrer to kugler med hinanden. Placer 2 kugler på startlinjen og se dem ræse om kamp mod målstregen.
3. Skriv farven på vinderkuglen i hver runde i de tomme felter. Disse går videre til runde 2.
4. Placer de 3 vinderkugler fra runde 1 på startlinjen, og se dem ræse mod målstregen.
5. Den første kugle, der når målstregen, vinder mesterskabet! Skriv vinderen ned, hvorefter sejren kan fejres.

TIDTAGNING

Ræs mod tiden!

1. Brug et stopur eller en stopursapp, og gør dig klar til at tage tid, som skal skrives ned på tidskortet.
2. Sæt kuglen i gang fra startlinjen og start stopuret.
3. Stop stopuret, så snart kuglen når målstregen, og skriv tiden med i det blankt felt til kuglens farve.
4. Hver kugle får 3 forsøg, hvorefter tiden fra de 3 forsøg lægges sammen, så du får en samlet tid for hver kugle.
5. Kuglen, der gjorde det på kortest tid, vinder tidtagningen! Skriv vinderen ned, hvorefter sejren kan fejres.

ELIMINERINGSSPIL

Sidste kugle er ude!

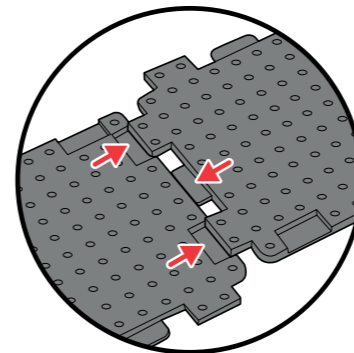

1. Skriv kuglernes farve i de tomme felter for runde 1 på elimineringskortet.
2. Alle kuglerne skal ræse mod målstregen. Sidste kugle er ude!.
3. Skriv farverne på resten af kuglerne ned til næste runde.
4. Bliv ved med at ræse, eliminere og skrive rundens vindere ned.
5. Den sidste kugle, der er tilbage, vinder elimineringsspillet! Skriv vinderen ned, hvorefter sejren kan fejres.

SÅDAN BYGGER DU

Før du går i gang med at bygge, skal du lære hvordan delene sættes sammen. Når du har lært dette, vil du nemt kunne bygge en hel kuglebane!

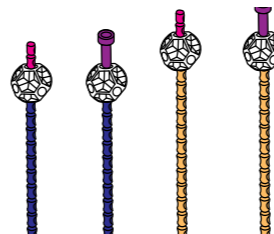

SÅDAN SÆTTES BUNDENE SAMMEN

Sæt det 4 bundstykker sammen, så du har én stor bund til din kuglebane. Hvert bundstykke har 2 sider med tapper, der stikker ud og 2 sider med riller, der passer til tapperne. Sæt tapperne på et bundstykke mod rillerne på et andet bundstykke, og tryk derefter det ene stykke på det andet stykke, så det sidder ordentligt fast. Drej bundstykkerne efter behov. Gentag dette indtil de 4 stykker er sat sammen. Se vejledningerne til bygning af bunden på efterfølgende sider.

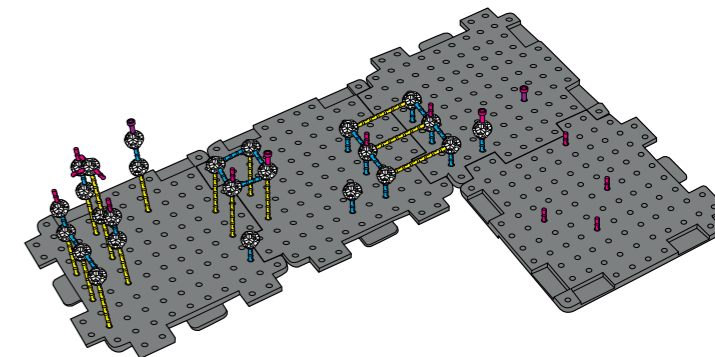

SÅDAN SÆTTES LEDDENE PÅ

Sæt hullerne i leddene mod stængerne, og tryk derefter leddene på stængerne. De andre huller i leddene bruges til, at sætte andre dele sammen.

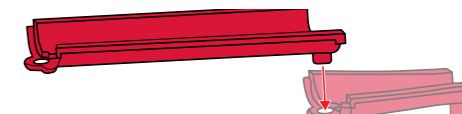

MONTERING AF STÆNGERNE

Stængerne sættes på bunden ved at sætte enderne i hullerne foroven på bunden. Tryk stængerne ordentligt i. Følg byggevejledningerne, så du ved hvor hver stang skal sidde.

SÅDAN SÆTTES BANERNE SAMMEN

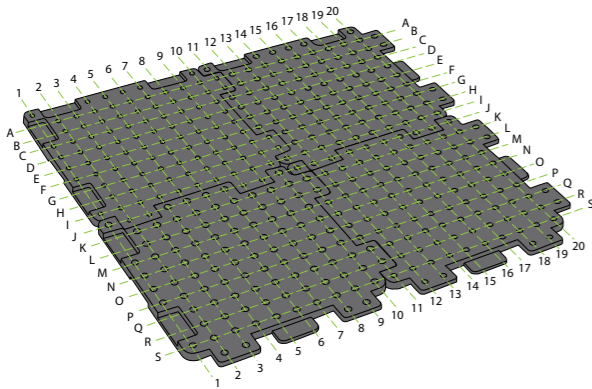

Når banestykkerne sættes sammen, skal du starte med enden med pinden på hvert banestykke. Hullet på modsatte enden af banestykket sættes på stængerne med dækslerne. Pinden på det næste banestykke trykkes ind i hullet på banestykket, der allerede er sat på.

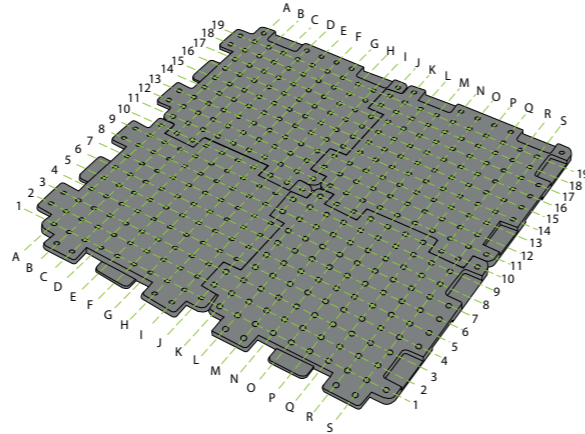

VEJLEDNING TIL BUNDEN

Dette er din vejledning, når du sætter delene sammen. Brug de medfølgende vejledning til at lave dit layout. Tag også et billede, så du hurtigt kan referere til det!
