Book case with removable cover

SKU: TEBKDETSAA13K

The book case whose interior can be detached and used as an ordinary cover

USE IT AS A BOOK CASE OR AS AN ORDINARY COVER

The **book case with removable cover** is designed to protect your **Samsung Galaxy A13 5G/Galaxy A04s** from minor bumps and scratches. **You can use it in two ways**: as a book case or as an ordinary cover.

The **keys are always left free** and the handy **camera hole** allows you to take pictures without removing the phone from the case

THE PROTECTION YOU NEED WITH THE BOOK CASE

The smartphone will be completely wrapped: **the screen will also be protected**. The front flap can be opened and folded to better handle calls while leaving the screen clear. The **magnetic closure** also prevents accidental opening, providing additional security.

Inside the case there are **3 pockets** to store **credit cards, notes, cards or documents**. This way, you'll always have the most important cards at your fingertips.

CAN BE USED AS AN ORDINARY COVER

Using slight pressure, the case detaches from the microfiber cover it is magnetically attached to. In this way, it transforms into a **PC+TPU** cover: soft at the sides and rigid at the back. The cover will perfectly follow the features of the phone, **maximising its protection without weighing it down**.

This feature is very useful if the book case is too bulky to attach the smartphone to a car mount, or simply when you have little space to store it in the pocket of your jeans and need a lighter cover.

KEY FEATURES:

- hard book-style case
- removable PC+TPU cover
- magnetic closure
- 3 cardholder pockets

Book case with removable cover
SKU: TEBKDETSAA13K

Technical data

Closure: Magnetic
Coupling: Magnetic
Material: PC + TPU
