

WATERFILTER

TYPE: DLSC002

SKU: 5513292811

Sterilized water filter for De'Longhi coffee machines

- Contains ion exchange resins and active carbons
- Resins reduce lime scale and heavy metals, extending coffee machine lifespan and improving the quality of the water
- Active carbons absorb chlorine, other contaminants and bad smells from the water, improving coffee taste and aroma
- Used regularly prolongs the decalcification time by 30% (in machines with the appropriate function).
- Quick and easy to install
- The filter lasts for two months with normal use of the machine, but will only last for a maximum of 3 weeks if the machine is left unused with the filter installed
- The filter includes a built in calendar function which can be set
- For models: BCO 410/411/420/421/430/431/432 - COM 530/532 EC 685/820/850/860/900/950/9335/9355/9665/9865 ESAM 420/428/460/6600*/6620*/6650*/6700*/6704/6708/6720/6750/6850/6900/6904 (*only 3rd series) ECAM - ETAM - EPAM - EXAM
